About Me

As a fresh mern stack developer, proficient in front-end technologies such as HTML, CSS, JavaScript, and React, I am eager to begin my career journey. With a focus on continuous learning and innovation, I aim to apply my skills to create impactful solutions and contribute effectively to any organization I join.

Education Background

Bachelor In Computer Sciences

Virtual University of Pakistan

2021- 2024

Professional Experience

Online Voting System (FYP)

- Web based voting system system developed in HTML, CSS, Java script & PHP, to assist online and safe elections.
- My role in this project was to develop the front end pages using HTML & Java Script and design them using CSS.
- I also performed end to end testing of this project.

VDonate Project

- This product was developed by my seniors and contained both android & web application.
- I performed over all testing of this software by running all flows and mentioned them bugs.

Certifications

Full Stack Developer

PNY Training Institute

2024-Present

Hobbies

- Painting
- Exploring
- Designing
- Editing
